MAYOR'S INAUGURAL ADDRESS

I am very happy this evening to welcome the members of the 1951 Council. I am particularly pleased to greet the new members and I am sure that they will make their contribution to the deliberations of this Council. I know that the continuing members of Council, with the experience which they now have, can contribute more than ever to the administration of the city's business. Kingston is fortunate in having a much more experienced Council now than it had two years ago and I think that the citizens can look forward to two years of progress and advance in the affairs of our city.

Most of the projects referred to in my previous inaugural addresses have been completed or put under way. I refer to the re-organization of the Works Department, the renovation of the City Hall, the water filtration plant, boundary adjustments, Community Memorial Centre and sewage disposal plans. Some of these matters have been carried well towards completion while others are still under consideration, and will be for some time.

Without doubt the outstanding problem of 1951 will be the matters arising out of the annexation hearings now proceeding. If there is an extension of the city's boundaries, then the burdens of adjustment and absorption will be heavy and will take most of our available energies. It will also require the closest co-operation of all the Boards and Commissions with the City Council. If, by any chance, the boundaries should not be extended, then the city must reconsider its whole position with respect to supplying services to neighbouring municipalities. It is one thing to assist in a small way contiguous rural municipalities, it is quite another thing to sell services on a large scale and on a permanent basis to an established urban or semi-urban municipality. It is also a matter of importance when the sale of such services involves the city in making capital investments.

Now that the water filtration plant is practically under construction, the problem of sewage disposal will have to be dealt with, even if it does resolve itself merely into the preparation of working plans. The Council will have to make decisions on this matter within the next few months.

I would again like to state the Council's appreciation of the good work being done by the city's officials and employees. Governments cannot operate without a civil service and we have built up — and intend to maintain — an efficient body of city employees. The Council has endeavoured to meet their needs as best it could, although even at the best, salaried employees do not fare too well in periods of rising prices.

The financial position of the city is good, and our debt has been kept down. Taxation per capita in Kingston is now among the lowest in the province. Not only has the tax burden been kept under control, but as a matter of deliberate policy, the debt has been kept to a short term so that over half the entire city's debt will be paid off in the next five or six years.

There are heavy commitments before us but I believe that if they are dealt with wisely and carefully, the enviable position of our city can be maintained and the weight of taxation for debt charges can be kept somewhere around its present level. Of course, as I have stated before, rising prices do not lead to lower taxes, and the future is almost entirely dependent upon the course of price levels in Canada and the United States.

Although municipal governments have some contractual expenditures which do not rise with rising prices, they are in much the same position as the rest of the community. If prices go up, municipal costs go up and municipal revenues must go up too. And this generally means more tax revenue. The re-armament programme in Canada and the United States is likely to put further inflationary pressure on the price level and I fear, therefore, that the costs of municipal government may also be under further pressure. I think that Council and our people should face this project without illusions. I have made these views clear to the public and Council at all seasons of the year, for I believe that an informed public is the best safeguard of good government.

We will have many discussions and arguments in the coming year, but with a common goal and mutual tolerance, I know that we can carry on the city's business with dignity and effectiveness, and with benefit to those we serve.

The customary practice will be followed whereby the Acting City Clerk-Comptroller will refer the relevant parts of the Inaugural Address of His Worship the Mayor to the various committees for their consideration.

Ald. Tugwood requested the enforcement of By-law 24 as amended by By-law 568 (1947) whereby Cherry Street was made a STOP street at Quebec Street.

Ald. Casterton stated that a coal dealer was using his lot on James Street and part of City property for the storage of coal thereby creating a nuisance from the coal dust to the houses that were located nearby. The coal dealer should be required to cover the coal.

Ald. C. A. Smith said that during the rush hours people on Princess Street west of Bagot were sometimes unable to enter the Regent-Johnston bus. More buses should be put on during the rush hours and the bus company should be asked to experiment with the Regent-Johnston buses reversing the present bus route.

Ald. Tugwood complimented the City's representatives on the Chamber of Commerce for the industrial brochure that had recently been issued and suggested that the City's representatives on special committees should submit a report to Council.

REPORTS

FINANCE AND ACCOUNTS REPORT NO. 8

Ald. Weller presented Report No. 8 of the Committee on Finance and Accounts as follows:—

Kingston, February 2nd, 1951.

To the Mayor and Members of City Council:

Gentlemen:—The Committee on Finance and Accounts begs leave to report and recommend as follows:—

1. (a) That the opinion expressed in the decision of The Ontario Municipal Board that although the application of the City of Kingston for the annexation of the larger area of the Township of Kingston had much merit the capacity of the administration of the City of Kingston to handle the larger area was insufficient, is not agreed with.

(b) That the boundaries of the area set out in the decision are unworkable and would not permit control of the area by the only urban government in the area.

(c) That the decision is unbusinesslike in that it will result in a duplication of urban governments where only one is desirable and economic, and it leaves with the City too great a burden of expenses without the corresponding source of tax revenue to properly handle such burden.

(d) The suggested date of 1 January as the effective date of the proposed Order for annexation is administratively impractical and will result in an increased burden of taxation on the taxpayers in the City of Kingston and in the area which it is suggested should be annexed, because of the inability to properly assess.

(e) That a by-law be submitted to City Council requesting an application to The Ontario Municipal Board to rehear or to inquire and report on the said application for annexation, and to rescind, change, alter or vary the decision made by the Board, and that all proceedings be in the meantime stayed. (18:1).

2. That the Acting City Clerk be authorized to order a transcript of the evidence taken at the hearings on the City's annexation application. (18:1).

UNFINISHED BUSINESS

Ald. Tugwood presented a list of streets in Frontenac Ward, that, in his opinion, required more adequate street lighting. Mayor Curtis stated that he would ask the Public Utilities Commission to investigate the situation.

Ald. Crawford suggested that the recent windstorm which had blown down some of the overhanging signs emphasized the importance of adequate insurance coverage for the City's liability.

Ald. Tugwood referred to The Ontario Municipal Association survey of remuneration paid to mayors and aldermen in various municipalities and requested the Administration Committee to consider the desirability of remuneration for aldermen of the City of Kingston.

Mayor Curtis advised that the Annexation Order being prepared by the City provided for annexation to become effective January 1, 1952. The Township of Kingston had not opposed this date.

Ald. Ross declared that property owners were being charged for sewer work when the sewers were blocked by the roots of trees growing on city property. Ald. A. B. Smith replied that the Board of Works would investigate this problem.

CITY OF KINGSTON
BUDGET FOR THE YEAR 1951

March 30, 1951.

To the Mayor and Members of City Council:

Gentlemen:—The Finance Committee presents for the consideration of City Council the Budget for the year 1951. The Committee recommends a total tax rate of 47.25 mills. School purposes account for 20.60 mills and garbage and ash collection 2.20 mills of this rate.

Although the estimates originally presented to the Finance Committee represented an increase of twelve mills, the Finance Committee has succeeded in paring the estimates by 2½ mills which will reduce the increase in the mill rate to 9.45 mills. The chief factors contributing to the increase in taxes are as follows:

	Increased Requirements for 1951 as compared with 1950
School Purposes	$187,200
Net Debt Charges	51,378
Salary and wage increases Municipal employees, including Police	38,632
Increased personnel and salary increases Fire Department	21,492
Hospital Grants, Grants to Charitable and Educational Institutions, Children's Aid Society, and other statutory charges	38,430
Garbage Department	9,876
	$347,008

Approximately 2/3 of the salary increases are the result of the $200 per annum increase given last November to offset the increased cost of living; the balance of the increase is represented by the normal increases provided for in the established salary ranges and by a few special adjustments to correct inequities. The greatest single increase is attributable to the levy for educational purposes which is determined by the Boards of Education.

The proportionate costs of the various municipal services for 1951 are shown in tabular form herewith:

WHERE THE TAX PAYER'S DOLLAR GOES

General Government	10.4	cents
Protection of Persons and Property	17.8	"
Public Works — Roads, Highways and Streets	5.7	"
Sanitation and Waste Removal	4.7	"
Conservation of Health	2.4	"
Public Welfare	9.4	"
Education	35.5	"
Recreation and Community Services	3.5	"
Debt Charges (Net)	10.6	"
	100.0	"

Respectfully submitted,

Members of the Finance Committee.

UNFINISHED BUSINESS

Ald. McCullough asked if the two 200-watt multiple lights which had been authorized for installation at York and Alfred, and on York Street between Frontenac and Albert Street would give sufficient light for the area. In reply, Mayor Curtis stated that this lighting had been recommended by the Public Utilities Commission and the Board of Works and it was considered to be adequate. However, if experience proved that it was not, additional lighting could be authorized.

Ald. Tugwood declared that he was concerned over the reduction in the appropriations for repairs to permanent pavements and unpaved roads. There was need for a considerable expenditure of money on roads in the north section of the City especially Fraser Street and he suggested that Queen's University should be asked to forego their civic grant and that the money should be spent on roadways. In reply, Ald. Weller stated that the Board of Works would ensure that all roads were kept in a passable condition. The improvements to Fraser Street should be carried out under The Local Improvement Act and he suggested that a petition be presented by the residents of the area.

Ald. Stone stated that the road at Place d'Armes was deteriorating. Ald. Weller advised that the Board of Works considered it inadvisable to spend any great amount of money on this road until new sewers had been laid.

Ald. Weller suggested that the Administration Committee should give consideration to amending the present by-law concerning peddlers so that City of Kingston business men would have greater protection.

Ald. Reid advised the members of Council that this was probably the last Council meeting that he would attend; if his present plans materialized he would be rejoining the R.C.A.F. in the very near future. He expressed pleasure in the association that he had with the members of Council and said that he hoped to see Kingston expand and acquire the Norman Rogers Airport, develop the marshlands, and proceed with sewage disposal. He would submit a written resignation as soon as he received confirmation of his Air Force posting. Mayor Curtis stated that Council regretted the resignation of Ald. Reid but appreciated and commended his decision.

UNFINISHED BUSINESS

Ald. Casterton said that as Chairman of the Property Committee he should like to express thanks and appreciation to Ald. Foley for the gift of the attractive ash-trays for City Council and the Committee Room.

In 1950 the Club had spent over $3,000 for this playground and many hours of work had been donated by the members. However, the Club did not wish to put too much capital into land that was owned by the Canadian Pacific Railway and he requested the Parks and Property Committee to furnish a new location for the playground activities on land owned by the City. In reply, Ald. Casterton stated that if the Kiwanis Club vacated Kiwanis Square he believed that an oil company would erect oil tanks on this location and he was opposed to this being done.

Ald. Jackson requested that the rubbish on the east side of the Fair Grounds' fence along Nelson Street be cleared away.

Ald. Black recommended that the Traffic and Safety Committee give consideration to prohibiting parking on one side of Johnson Street between Clergy Street and Sydenham.

In reply to a question by Ald. Compton about the policy of storing city-owned vehicles in the municipal garage Ald. Compton stated that the success of the recommendation of the Administration Committee would depend on the co-operation of the various departments.

Ald. A. B. Smith suggested that a letter be written to the Kingston Flying Club requesting that training flights should be diverted from residential areas of the City of Kingston.

Mayor Curtis referred to the vacancy created in Cataraqui Ward by the acceptance of Ald. Reid's resignation and said that in keeping with usual practice he would request the Administration Committee to make a recommendation for an appointment to fill this vacancy.

Ald. Trumpour proposed that a traffic survey should be made to provide information for road widening. In reply, Ald. Chown stated that on the recommendation of the Planning Board a traffic survey had been completed a few years ago and many of the recommendations had been implemented.

UNFINISHED BUSINESS

Ald. Weller introduced J. Seymour of the Cities Service Oil Company Limited who made a presentation to Mayor Curtis of a charcoal drawing of the Mayor. Mr. Seymour explained that this drawing had been made by one of Canada's foremost artists as a tribute to Mayor Curtis and in connection with the Cities Service programme "Ontario Marches On" which had featured the City of Kingston a short while ago. Mayor Curtis expressed his appreciation for the sketch and stated that it would serve as a pleasant memento of his association with the City.

Ald. Earl stated that she had received several favourable comments from citizens of Kingston on the appointment of Dr. W. A. Mackintosh to the position of principal of Queen's University and she believed that Council would be expressing the feeling of the citizens by writing a congratulatory letter to Dr. Mackintosh.

Ald. Byron requested the Chairman of the Board of Works to provide more effective street cleaning in the Colborne, Vine and Main Street area. He suggested that it might be desirable to re-employ some of the street cleaners as the street sweeper was not doing an efficient job. In reply, Ald. Weller declared that the street sweeper was covering all the paved streets of the City at least twice a week and that if the sweeping was not effective it was because cars were parked overnight on the streets.

Ald. Stone referred to the proposed retirement of certain Board of Works employees who had reached the age of 70 and stated that he hoped other jobs could be provided for them.

Ald. Tugwood stated that if sewer and water services were installed at the proposed park on Division Street he had the offer of a donation of funds for the erection of a band shell, a shelter and a fountain.

UNFINISHED BUSINESS

Ald. Casterton stated that he wished to bring to the attention of the Board of Works the fact that there was a bad odour coming from the City Dump which was a nuisance to the residents in that area. He also wished to bring to the attention of the Board of Works the lack of regular street cleaning on Division Street, Montreal and Bagot Streets. Since these streets were used by trucks going to the incinerator and City Dump and materials often spilled on the road it was important that these streets be cleaned regularly yet there had been intervals of from ten to seventeen days during which the sweeper failed to operate on portions of these streets. In reply, Ald. Weller declared that he had been at the City Dump quite recently without noticing the odour there but would have the situation checked. With respect to the street cleaning he had been advised by the Commissioner of Works that every street was swept twice a week.

Ald. Trumpour remarked that in winter months it was difficult for drivers who stopped for the STOP sign on West Street at Bagot to get their cars started and he suggested that the STOP should be made for cars on Bagot entering West Street instead. Ald. Foley stated that he supported the foregoing suggestion as he had noticed considerable difficulty experienced by drivers at this intersection in the winter months. In reply, Ald. Chown said that it was desirable to have Bagot Street a THROUGH street but that the Traffic and Safety Committee would consider this suggestion.

Ald. Trumpour requested that the Public Utilities Commission be asked to proceed with the erection of a street light on Barrie Street below Union.

Ald. Ross stated that he had intended to discuss an incident concerning the Acting City Clerk but that he would postpone it until Mayor Curtis was present.

UNFINISHED BUSINESS

In reply to a letter from Ald. Weller which stated that an odour was coming from one of the small playgrounds near the City Dump rather than the City Dump, Ald. Casterton stated that there had been an odour coming from the Dump at the time that he had made the complaint and that the condition at the small playground was being cleared up.

Ald. Chown suggested that the service clubs should hold their bazaars at the Community Centre instead of on the market where they created a traffic problem, disrupted the market and were adversely affected by bad weather. The Community Centre rates should be more reasonable for service club rentals he maintained. In reply, Mayor Curtis stated that the rental rates of the Centre could be discussed by the Board of Trustees.

Ald. Casterton stated that if a rainy day occurred during one of the service clubs' bazaars it was the practice to grant them an extra day on the market, and he considered parking on the market less important than raising funds for service club work.

Ald. Crawford asked if any action had been taken to have the shacks on the Springer property on King Street removed which were said to be erected contrary to the City by-laws. In reply, Mayor Curtis stated that the persons concerned had been advised to remove these buildings and if this were not done the officials would institute action.

Referring to the sign at the foot of Princess Street and the buildings on King Street, Ald. Trumpour urged that the Board of Works should support the Commissioner of Works in his attempts to enforce City by-laws.

Ald. de St. Remy suggested that the City should acquire the property leased by the Kingston and Pembroke Railway in front of the City Hall when the current lease expired. He stated that he had received many complaints about the clatter of manhole covers and of the condition of the roadway at Concession and Tenth Streets. He also suggested consideration for a renovation of the sewerage system near Anglins since Anglins wished to fill in the slip at the foot of Bay Street.

The Mayor welcomed Ald. de St. Remy on his return to City Council.

Ald. Cunningham stated that he had received several complaints about the noise on Centre Street from compressors that he believed were being operated for St. Remy Motor Service.

Ald. Casterton said that action was long overdue to uncover two catch basins on Earl Street between Sydenham and Bagot that had been covered up about two years ago.

Ald. Tugwood urged that his motion of some years ago that all municipal positions should be advertised and preference given to veterans should be adhered to.

Ald. Jackson stated that on Barrie Street near John the street sweeper was unable to cope with some of the stones and heavy debris and suggested that trucks should be sent there to pick up this refuse.

Ald. McCullough referred to previous requests made to repair Place d'Armes Street and declared that the street was in a deplorable condition.

Ald. McMahon remarked that the right-of-way from Helen to Westdale and from Westdale to the Palace Road was not being looked after by the City and he suggested that the City should take care of it or transfer it to the adjoining property owners. He stated that another area in need of cleaning up was the corner of Mack and Helen which was being filled with sweepings and refuse. Consideration should be given to disposing of the shopping district in this area.

With the consent of the Mayor, Ald. Ross retired from the meeting.

UNFINISHED BUSINESS

He stated that he had received numerous complaints that the surface treatment was being applied before the road was properly repaired and that there were innumerable little loose pebbles lying about after the treatment that created a nuisance. In reply, Ald. Weller advised that the surface treatment had been authorized as part of the surfacing programme and that the object was to prolong the life of a pavement without going to the expense of a resurfacing job.

Ald. C. A. Smith referred to the addition of fluorine to the water by various municipalities which had resulted in a considerable reduction in tooth decay. The Mayor agreed to refer this suggestion to the Public Utilities Commission.

Ald. McMahon referred to recent traffic accidents in the west end of the City and suggested that stop signs should be erected on Westdale, Helen and College to slow down the speed of the traffic and protect the children.

Ald. Tugwood reported that he had received a number of telephone calls requesting that the employee who had been dismissed from the Board of Works for misconduct should be reinstated. If this were not possible Ald. Tugwood suggested that the employee should receive the usual honorarium for twenty-seven years service with the City. Ald. Ross supported Ald. Tugwood and stated that he thought the dismissal was drastic and that he would like to see the matter reconsidered. Ald. Weller said that the situation had been carefully reviewed by the Board of Works and it was the opinion of the Committee that the Commissioner of Works should have the authority to hire and fire employees without interference.

UNFINISHED BUSINESS

Ald. Tugwood stated that he was disappointed in the recommendation of the Administration Committee that no action be taken on the suggestion of an honorarium for L. Jackson, a Board of Works employee who had been dismissed after 27 years service. Ald. Byron stated that he supported Ald. Tugwood's position and that he proposed to introduce a motion later on in the meeting concerning this matter. In reply, Ald. Crawford stated that the Administration Committee was not dealing with the merits of the dismissal of the employee but with the question of granting an honorarium to him. Since the regulations concerning the granting of an honorarium stipulated that an honorarium was to be paid on retirement, the Committee did not consider that it would be justified in recommending the granting of an honorarium to an employee who had been dismissed.

Ald. Byron urged that the Police Department be directed to curb the speeding on Johnson Street near Clergy which was dangerous to the school children attending the two schools in this area.

Ald. McCullough urged that representation should be made to the Dominion Government for the erection of an uptown Post Office. Ald. C. A. Smith supported this proposal stating that business men in the west end would greatly appreciate mail boxes in this area so that they could receive their mail more than once a day. Ald. de St. Remy advised that the Dominion Government had included a substantial sum for new Post Office facilities in Kingston in their current budget.

Ald. Casterton referred to the notice at the Fair Grounds about the opening of a market there on October 27th and explained that this does not refer to the public market which would continue to be operated at the Market Square in accordance with the decision of the Parks and Property Committee.

UNFINISHED BUSINESS

In reply to a question from Ald. Byron about the corrective action being taken by the Traffic and Safety Committee to remove the traffic hazard at the corner of Johnson and Clergy Street, Ald. Chown stated that he was investigating the whole question of protections for pedestrians when crossing at cross-walks and that he expected a reply from the Department of Highways soon.

Ald. Stone stated that a traffic officer was required at the corner of Bagot and Queen during the rush hours as cars coming from Bagot Street were unable to pass through the Queen Street traffic. Mayor Curtis agreed to bring this request to the attention of the Chief of Police.

Ald. Earl advocated the employment of a school aide at Johnson and Clergy.

Ald. Jackson suggested that Johnson Street should be made a STOP street both ways at the corner of Clergy.

Ald. Black recommended that the Traffic and Safety Committee give consideration to the introduction of "give-way" streets which were being experimented with in London, Ontario.

Ald. Tugwood reported that he had received a number of complaints about the newspapers scattered around at the corner of Alfred and York Street.

In reply to a question from Ald. McCullough about the effectiveness of the sound system at the Community Centre, Ald. Earl stated that the 25-foot extension was giving entire satisfaction but that some difficulties had been experienced with the 100-foot loud speaker extension. If the public would report to the Manager their difficulties about hearing it would assist him in making adjustments to the loud speaking equipment.

Ald. Tugwood suggested that in view of certain criticisms about the Royal Visit, Council should disclaim responsibility for the Royal Visit arrangements. The Mayor replied that the arrangements for the Royal Visit had been approved by a Committee appointed by City Council and that the Council should feel proud of the excellent allocation of time with 63 minutes being used for the general public, 30 for R.M.C. and only seven minutes at the Station

Ald. Casterton stated that he had received complaints about the nuisance pigeons were creating in various parts of the City.

Ald. Jackson advised that he had received complaints about the conditions at the Veterinary Hospital on Division Street. Ald. Tugwood reported that he recently made an inspection of these premises and he assured the members of Council that action was being taken to improve the conditions.

An amendment to Clause 12 of Report No. 84 of the Committee on Finance and Accounts proposing that the Commissioner of Works reconsider the rehiring of Mr. L. Jackson was ruled out of order by the Mayor. The Mayor suggested that this resolution could be presented under MOTIONS with the consent of Council.

Moved by Ald. Crawford, seconded by Ald. Casterton (6) that Report No. 84 of the Committee on Finance and Accounts be received and adopted.—Carried on the following division: For (18), Against (1).

UNFINISHED BUSINESS

Ald. Weller stated that he wished to record in the minutes of the Council an appreciation to Mr. S. Peters, Superintendent of Garbage and Ash Collection, for the many hours of overtime work he had spent in helping with the recent repairs to the incinerator.

In reply to an inquiry from Ald. Chas. Smith, the Mayor stated that a letter had been received from Trans-Canada Air Lines re the proposed stop-overs at the Kingston Airport which indicated that the next step would be to arrange with the Department of Transport for the installation of the necessary airport facilities. Already, he had made one trip to Ottawa to discuss this matter with the Minister of Transport and another one would be made in the near future.

The Mayor reported that nomination day for Portsmouth and the portion of the Township to be annexed to the City would be held on December 31st with the voting on January 7th, 1952. He suggested that the caucus could be held on the 8th or 9th of January with the Inaugural Meeting on the 9th or 10th of January.

In response to a question from Ald. A. B. Smith, the Mayor advised that the number of wards in the City of Kingston would remain at 7, but that it would be necessary to redefine the ward boundaries.

Ald. Tugwood stated that he had reported the large holes in the pavement at the bus stop at Cowdy and Stephen to the City Engineer on several occasions but no action had been taken. He requested the Chairman of the Board of Works to see that the hazard was removed.

Ald. Casterton remarked that there had been less attention by the Board of Works this year to street cleaning, patching the pavements and repairing the walks than for a good many years.

Ald. Trumpour urged that the by-law requiring property owners to have their walks shovelled should be enforced this winter.

Ald. Ross requested the Board of Works to fill the holes in the pavement around St. Mary's Cathedral and the new Cathedral School where there were huge puddles of water. He also suggested that patches were required for the curb along the new Barrie Street walk.

MOTIONS

On a vote of 11-8 Council refused consent to the presentation of the following motion of Ald. Tugwood (mover) and Casterton (seconder):— In view of a recent amendment to The Municipal Act which prohibits the payment of an honorarium to an employee of a Municipal Corporation for any reason other than old age or illness and that this amendment prohibits the payment of a lump sum to Mr. L. Jackson, therefore be it resolved that:—

This Council, although recognizing the right of the Commissioner of Works to hire and fire employees under his jurisdiction we feel that in the case of Mr. L. Jackson some recognition of his 27 years service to the City should have been taken into consideration especially since he had not been given any previous warning that the offence for which he was dismissed would not be tolerated by the City. Therefore we believe that if the Commissioner of Works would reconsider his previous decision and re-engage Mr. Jackson in some capacity that the democratic principles of justice for which we all strive will best be served.

To Adjourn

Moved by Ald. Casterton, seconded by Ald. Tugwood (7) that Council do now adjourn.

Council adjourned at 8.57 p.m.

City Clerk-Comptroller. Mayor.

UNFINISHED BUSINESS

Ald. Chown suggested that before more landscaping was done at the Community Centre thought should be given to enlarging the parking area immediately in front of the Centre. He stated that the Traffic and Safety Committee had met with Mr. Hay and Mr. McCormick to discuss this and the matter was under consideration by the Board of Trustees of the Community Centre. Some effort should be made to get the cars off the street, especially in the winter so as to reduce the inconvenience to residents of the neighbourhood to a minimum. The Mayor stated that the Board of Trustees had discussed this and had agreed that there should be as much off-street parking as possible. Ald. Earl advised that Mr. Hay and Mr. McCormick were preparing a report on Parking for the Trustees of the Centre. Ald. Weller stated that there was a grass area 150 feet by 50 feet in front of the Centre with a driveway between the grass area and the main door. To remove the grass and flower beds would possibly bring the traffic too close to this driveway and would impair its usefulness. One proposal had been to use the inside of the race-track in winter as a parking lot for the overflow of cars. The Mayor assured Council that every consideration was being given to this problem.

Ald. McCullough presented a request from the merchants at the corner of Princess at Sydenham for a bus stop at that corner. This was referred to the Committee on Administration and Legislation.

Ald. Trumpour suggested that a traffic light be placed at the corner of Clarence and King Streets. He also suggested that there was much parking in the City too close to the corner, particularly at the corners of Brock and Ontario Streets, Market and Ontario Streets, Clarence and Ontario Streets, Brock and Barrie and in the downtown area generally. He advocated a stricter enforcement of the parking regulations.

Ald. Black presented a request from the residents on Johnson and Brock for lighting in the lane-way between Sydenham and Clergy and requested that the attention of the Police also be drawn to it.

Ald. Chown presented a petition from residents of the same area on the same problem. He suggested that NO PARKING signs should be placed at the entrance to the laneway.

Ald. Shurtleff drew attention to the problem of dogs running at large and requested that greater control be exercised over them.

Ald. Weller stated that he had been approached by members of The Flying Club as to the present stage of negotiations on the Airport. The Mayor advised Council that he had been discussing this with the Department of Transport and expected soon to discuss it also with the Minister of Transport, Mr. Chevrier. Mr. Henderson had also made representations to The Department of Transport. The Mayor pointed out that this Department was particularly busy at this time as it had a number of important Bills before the House of Commons.

Ald. Byron stated that he was disappointed that the corner of Brock and Clergy had not been made a STOP street after he had brought in a petition from the residents of that area. It was a hazardous corner; there was a school aide, but this was not sufficient and he urged reconsideration by the Traffic and Safety Committee.

The Mayor suggested that the meeting of Council on December 24th be cancelled. Council agreed to this suggestion.

Ald. de St. Remy asked if Kingston City Coach Co. Ltd. had sent an operating statement to the City. The Mayor stated that a report on the first two months operation was expected soon.

The Mayor wished the Aldermen a Merry Christmas.

MOTIONS

In accordance with Rule 38 the Mayor referred the following motion which appeared on the agenda to the Board of Works:

In view of a recent amendment to The Municipal Act which prohibits the payment of an honorarium to an employee of a Municipal Corporation for any reason other than old age or illness and that this amendment prohibits the payment of a lump sum to Mr. L. Jackson:

THEREFORE BE IT RESOLVED:

That this Council, although recognizing the right of the Commissioner of Works to hire and fire employees under his jurisdiction, feels that in the case of Mr. L. Jackson some recognition of his 27 years service to the City should have been taken into consideration especially since he had not been given any previous warning that the offence for which he was dismissed would not be tolerated by the City;

THEREFORE we believe that if the Commissioner of Works would reconsider his previous decision and re-engage Mr. Jackson in some capacity, that the democratic principles of justice for which we all strive will best be served.

The Mayor asked Mr. Quenneville if he still wished to address Council now that the motion respecting the re-instatement of Mr. Jackson had been referred to the Board of Works. Mr. Quenneville replied that he still wished to address the members of Council. The question was then put:

Does Council grant permission to Mr. Quenneville to address it: For (3), Against (17).

To Adjourn

Moved by Ald. Black, seconded by Ald. Byron (25) that Council do now adjourn.

Council adjourned at 9.10 p.m.

City Clerk-Comptroller. Mayor.
